FEATURES

Network equipment
For complex projects we are leasing network equipment. Our network engineers will help you to configure and make it operational.
MORE ›

USB flash / USB key / USB flash drive
We can connect a USB drive that can be used for backup or booting server's OS/Hypervisor. Clients' own USB drives are delivered to the Data Center via HOSTKEY or directly by a courier.
MORE ›

Technical support
HOSTKEY provides around the clock support to its clients. To contact our technical support, please, send an email to support@hostkey.com indicating the Service ID
MORE ›

? BGP services and clients' own IP-block announcement
HOSTKEY can announce client IPv4 networks via its own equipment without using a separate BGP speaker.
MORE ›

? BGP services using client's AS
We are offering flexible options to customers with their own AS to announce IP address prefixes via our equipment through BGP. We will establish the necessary BGP sessions and will ensure the proper distribution of IP block prefixes from the client's AS.
MORE ›

IPv4 addresses
We are leasing IP blocks up to 512 addresses in Russia and the Netherlands. Blocks can be routed via VLAN to the client's server. It is possible to use the IP addresses on various servers rented from us.
MORE ›

IPv6 addresses
We fully support IPv6 on all of our platforms. If you would like to order IPv6 /64 block of IP addresses, please contact HOSTKEY technical support.IPv6 addresses are allocated free of charge.
